Projects

Cryptopunks NFT Analysis Capstone Project

Analyzed Cryptopunks NFT sales data from January 2018 to December 2021 using SQL to derive insights on sales trends, top transactions, and buyer activity. Created summaries for each sale, calculated moving averages, and estimated average values.

Technologies Used: Microsoft Excel, MySQL.

Healthcare Analytics Capstone Project

Completed a robust Healthcare Analytics capstone using Tableau Desktop. Utilized data connection, visualization, and dashboard creation. Analyzed health metrics like blood pressure, BMI, glucose, insulin, and diabetes status for adults. Developed two dynamic dashboards with cohesive storytelling to convey insights efficiently.

Tasks:

1. Cleaned and formatted dataset for analysis.
2. Developed interactive dashboards.
3. Analyzed health metrics for insights.

Technologies Used: Tableau, Excel,
