## EDUCATION

---

### Vivekanand Education Society's Institute of Technology

2023-2025

Master of Computer Application

CGPA - 8.38

## EXPERIENCE

---

### Gigart Solutions Inc

May 2024 - July 2024

*Omni Sport Leader*

- Recruited as a Database Management Intern, completed **4000+** accurate data entries of tech companies from LinkedIn, ensuring precision using MS Excel.
- Managed **WordPress** backend content, maintaining data alignment, and contributed to LinkedIn engagement with static/dynamic posts and AI-generated tech articles.

### Decathlon Sports India

April 2023 – September 2023

*Omni Sport Leader*

- Analyzed sales data to implement strategies for optimizing product merchandising, leading to a **3.2%** overall growth and a turnover of **₹1.92 crore**.
- Organized and managed events in collaboration with companies and sport clubs to promote the brand.

### upGrad

June 2022 –December 2022

*Program Management and Operations Intern*

- Managed a **database** of **300+ alumni**, ensuring the accuracy of data, legal contracts, and payment invoices, which improved reporting accuracy and data reliability.
- Developed and analyzed metrics for the effectiveness of internal communications, using Mail and WhatsApp to roll out creatives and posters, improving the visibility of organizational updates.

## PROJECTS

---

### ResuMate

- Resumate is a web-based tool developed with **Streamlit** and **Python** to analyze resumes and provide users with personalized skill and course recommendations.
- With a backend powered by **MySQL** and an interactive admin dashboard, Resumate aims to enhance resume effectiveness by offering tailored insights based on parsed resume data.

### HR Analytics Dashboard - Power BI

- Developed an interactive HR Analytics Dashboard in Power BI using real-life employee attendance data. This project focuses on analyzing employee presence, work-from-home (WFH), and sick leave (SL) trends to provide actionable insights.
- Key tasks included data transformation, creation of DAX measures, and matrix tables to visualize data efficiently.
