EDUCATION

Vivekanand Education Society's Institute of Tech nology
Master of Computer Application
2023-2025

KJ Somaiya College of Science and Commerce
Bachelor of Science - Chemistry
2019-2022

EXPERIENCE

Decathlon Sports India   **April 2023 – September 2023**
Omni Sport Leader
- Analyzed sales data to implement strategies for optimizing product merchandising, leading to a **3.2%** overall growth and a turnover of **₹1.92 crore**.
- Organized and managed events in collaboration with companies and sport clubs to promote the brand.

upGrad   **June 2022 –December 2022**
Program Management and Operations Intern
- Managed a **database** of **300+ alumni**, ensuring the accuracy of data, legal contracts, and payment invoices, which improved reporting accuracy and data reliability.
- Developed and analyzed metrics for the effectiveness of internal communications, using Mail and WhatsApp to roll out creatives and posters, improving the visibility of organizational updates.

PROJECTS

SmartScout: The Intelligent ATS Scanner
- Developed a resume ATS scanner using **Python's Streamlit** and **Gemini Pro AI**, enabling users to upload resumes and analyze their match against job descriptions.
- Enhanced resume optimization by providing feedback on missing keywords and alignment with job requirements through a user-friendly interface.

FaceRecon Sketch - Forensic Facial Sketching Software
- The project is a forensic face sketching software developed with **Java** for both frontend and backend, utilizing **SQLite** for database management.
- It offers intuitive interface and customization options for law enforcement agencies and investigators, enhancing suspect identification in criminal investigations.

Restaurant Order Analysis
- This project leverages **MySQL** to analyze order data from a restaurant to derive insights into menu performance and customer preferences.
- This comprehensive analysis aims to identify the most and least popular menu items and types of cuisine, providing valuable information for menu optimization and strategic decision-making.

SKILLS

- Programming Languages: Python, SQL
- Tools: MS Excel, Google Sheets, Figma, Canva, WordPress, Power BI
- Soft Skills: Problem Solving, Collaboration and Teamwork, Adaptability, Client Relations

CERTIFICATIONS

- SQL(Intermediate) Certificate - HackerRank
- Exploratory Data Analysis - upGrad
- The Joy of Computing with Python – NPTEL
